Hats Off to Summer!

Let a stylish straw hat collection double as decor for a warm-weather entryway upgrade.

Designer Kate Lester of Kate Lester Interiors simply used Command hooks to create the dynamic overlapping wall arrangement in her client's Hermosa Beach, CA, home. "It's a functional way to hang the hats, and they are easy to grab as you are headed out to the beach for a day of fun in the sun," Lester says. Plus, you can quickly rearrange them whenever the mood strikes!
